DETAILED ACTION

Drawings

1. The drawings are objected to because figure 3 does not comply with 37 CFR 1.81(l) and 37 CFR 1.81(p). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

2. Claims 1-28 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter.

The applicant's claims for seismic data logging are known in the prior art, either as admitted by the applicant or as seen in the cited references. However, the prior art does not disclose the use of an atomic clock in the downhole tool. Specifically, United States Patent 6,614,718 to Cecconi *et al.* discloses seismic data logging using synchronized clocks, clocks with extremely small drift values, component cooling and heating. Cecconi *et al.* also teaches the use of atomic clocks as the reference clock above ground. Cecconi *et al.*, though, specifically teaches away from using an atomic clock in the downhole tool (see column 7, lines 21-32).

Conclusion

4. This application is in condition for allowance except for the following formal matters noted above. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
